

**Mr. Zheng Xipeng,
Vice General Manager , Sinocarbon Innovation &
Investment.**

From 2006 to July 2010, Mr Zheng was the R&D Director of carbon trade and low-carbon development at China Natural Water Resources & Electric Power Materials & Equipment. CWEME is a large state owned materials circulation enterprise covering electric power project bidding, import/export of steel, fuel & oil and engineering materials management. CWEME is held by China Datang Corporation, one of the big five power producers in China.

After leaving Datang Corporation group, Mr Zheng has been involved in researching and regulation drafting for a number of projects supported by the Chinese National Development Reform Commission (NRDC),

- Pilot Emission Trading Schemes in Two Provinces and Four Cities,
- National VER emission trading schemes
- MRV for Power Generation Corporation, and
- 12th 5 year plan low carbon development research for some energy corporations like China Huadian Corporation.

Mr Zheng is also the Senior Vice President of Carbon Trade and Investment Business of CITIC Securities
